

# LNAPL SKIMMING/ D-19-07 ANGLEUR (BE)

## Origin of the incident

Historical or accidental pollution, mainly heating oil tank leakage or leakage of service station petrol/diesel.

## Pollution description

- Heating oil.
- Fuel: diesel, petrol
- Spills ranging from a few m3 to several tens of m3 near or under the storage tanks.

## Solution implemented

Installation of small pumping units DS 500-6/125 or DS 100 – 5 linked to skimmers SKIM 2-25 or SKIM 4-25.

## Key words

Pollutant  
**Hydrocarbons**

Nb of Wells  
**8 wells**

Depth  
**12 m**

Pumping Unit  
**DS 500-6D**

Skimmers  
**SKIM 4-250**

Location  
**Feyzin, France**

Client  
**UDH**

Date  
**2019**
